- 2nd earliest. This variety has become a favorite with home gardeners because its vigorous growth habit makes it easy to grow and produce good crops in almost any growing region or soil type. Surecrop has Red Stele resistance furthering its adaptability. Good, firm, solid fruit makes it good for fresh use or for the freezer. All things considered, Surecrop is a good time proven, trustworthy variety just as the name suggests. Please order by March 15th, 2007 for spring delivery.

Herbs

- 100 days. *Linum usitatissimum*. Annual. Linseed. Culinary flax. Beautiful slender annual with brilliant sky-blue 1/2" flowers on graceful stems that grow 2-5'. Easily grown for its golden-brown seeds that are high in protein and edible oil. Seeds are eaten in breads and cereals, brewed into tea, roasted for a coffee substitute, and have many medicinal uses. Sprouts are used in salads. Unripe fruits used in chutneys. This ancient fiber plant was used by the Pharaohs. Medicinal: Digestive tract, chest/lungs, urinary tract, skin. Self seeds readily.

- [Chives, Onion](#)

Pkt.(100 seeds)	0.95	add to cart
-----------------	------	-----------------------------

Allium schoenoprasum. Perennial. Onion chives have been a culinary favorite in the orient for over 3000 years. Their lavender blooms also make them very pretty in the garden. We raise a bowl of them in the kitchen window ready for constant snipping. 18000 seeds/Oz.

- [Rosemary](#)

Pkt.(25 seeds)	1.50	add to cart
----------------	------	-----------------------------

- *Rosemarinus officinalis* 26,000s/oz. Perennial. At harvest time in the Mediterranean, the scent of rosemary can be smelled 20 miles away when the wind is right. Rosemary seed has a low germination rate and can be difficult to winter over. Well worth the trouble, however.
